

Name: **Elijah Zulu**

Computer No.: **2021385299**

Course: **CSC 4631**

Lecture: **Mr Martin Phiri**

Group Mates: **Elijah Zulu 2021385299 (me)**

Maximillan Soko 2021494314

Lab: **1**

My repo links

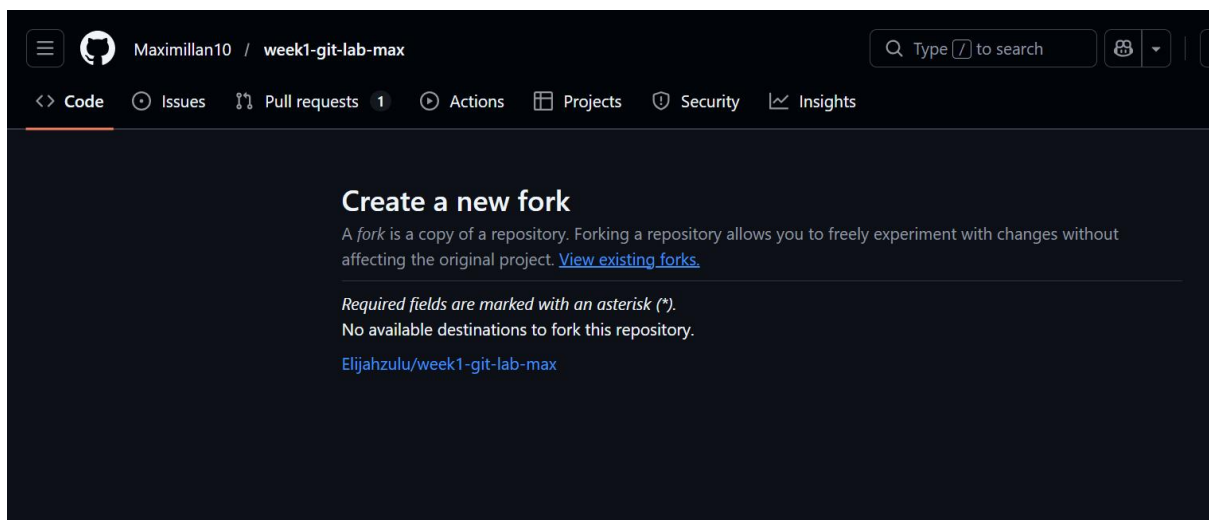

<https://github.com/Elijahzulu/week1-git-lab>

(my repo that my groupmate forked and contributed to)

<https://github.com/Elijahzulu/week1-git-lab-max>

(my groupmates repo that i forked and contributed to)

Screenshots and explanation

Here I forked my groupmates repo to my own github

```

elijah@DESKTOP-5OVMBP2 MINGW64 /d/code/PROJECTS/class_assignment/week 1 p 4 (mai

```

After forking his link

I cloned the repo, edited the contributors.txt, git added, committed and the pushed to my GitHub

After Committing to my GitHub I open a pull request to my groupmates GitHub so that my editing and contributions can merge and become one with his GitHub work.

There after all he had to do was confirm the Pull Request
